“Ingredients of a Winner!”

Condition	Feeding & Management Tips	Recommended Feed(s)	Alternative Feed(s)	Recommended Seminole Supplements	Recommended Forages
<b>RAO, COPD, Heaves, Respiratory Allergies, EIPH (bleeders)</b>	Avoid dusty grains, hays & dry pelleted feeds. Feed a textured feed high in digestible fibers. Feed chopped or cubed hay. Soak feed & hays.	Wellness DynaSport™ Seminole Senior Formula	Seminole Exacta 10™ Seminole Exacta 12™ Seminole Exacta 14™		Chopped forage products such as Wellness Equi-Safe®, T/A Cubes or Alfalfa Cubes
<b>Tying Up (PSSM, EPSM)</b>	Avoid grain-based, high-starch diets. Feed low starch concentrates. Higher-fat feeds are recommended for EPSM, draft horses and “hard-keepers”.	Wellness DynaSport™ Wellness Perform Safe™	Seminole Senior Formula Wellness Herbal Blend™	Rice Bran Oil	Any type of quality hay or forage product that is low in starch and sugar.
<b>Colic Gas/Spasmodic</b>	Feed low starch diet. Feed hay at a minimum of 2% of body weight daily.	Wellness Perform Safe™ Seminole Senior Formula	Wellness Senior Mix®		Mixed or grass hay. Mix Wellness Equi-Safe® into each feeding
<b>Colic Gas/Impaction</b>	Feed hay at a minimum of 2% of body weight daily. Always provide plenty of fresh clean water.	Seminole Senior Formula	Wellness Senior Mix®		Any quality hay or forage product.
<b>Laminitis (Chronic)</b>	Feed diet extremely low in starch. Maintain a healthy BCS no higher than 6.	Seminole Equalizer™	Wellness Safe & Lite®		
<b>Laminitis (At Risk)</b>	Feed diet low in starch. Maintain a healthy BCS score no higher than 6.	Seminole Equalizer™	Wellness Safe & Lite® Wellness Perform Safe™		Provide hays or forages low in starch and sugar. Wellness Equi-Safe® can be used as a hay replacement.
<b>Insulin Resistance/Cushings</b>	Feed diet extremely low in starch. Maintain a healthy BCS no higher than 6.	Seminole Equalizer™	Wellness Safe & Lite®		
<b>DOD</b>	Feed diet low in starch with balanced levels of nutrients and energy. Make sure the diet is adequate in lysine and correctly balanced in calcium and phosphorus.	Wellness Grow Right®	Seminole Senior Formula		Any type of quality hay or forage product.
<b>HYP</b>	Keep potassium low in diet. Avoid excess molasses & alfalfa	Ultra Dynamix™ Seminole Equalizer™ & Oats	Seminole Perfecta 10™		Any grass hay.
<b>Gastric Ulcers</b>	Avoid high starch feeds. Decrease feed intake by using a high fat concentrate. Feed forage & hay at a minimum of 2% body of weight daily.	Wellness DynaSport™ Wellness Perform Safe™	Seminole Show Formula	Rice Bran Oil	Grass pasture is ideal. Offer hay free-choice. Mix Wellness Equi-Safe® into each feeding.
<b>Bolting Feed/Choke</b>	Mix chopped or cubed forages with feed to slow feeding rate & encourage horse to chew. Soak feed.	Wellness Herbal Blend™ Wellness Senior Mix®	Seminole Exacta 10, 12 or 14		Mix Wellness Equi-Safe® with feed along with any type of hay.
<b>Poor Teeth/Dental Malocclusions</b>	Follow your equine dentists recommendations. Feed an easy-to-chew feed.	Seminole Senior Formula Wellness DynaSport™	Wellness Senior Mix®	Ultra Bloom® or Rice Bran Oil	Wellness Equi-Safe®, T/A Cubes or Alfalfa Cubes
<b>Hyperactivity</b>	Feed low starch and sugar diet. Use fat if extra calories are needed.	Wellness DynaSport™ Wellness Perform Safe™	Seminole Senior Formula	Rice Bran Oil	Mixed or Grass Hay
<b>Feeding Oats or a COB Diet</b>	Mix grain with a ration balancer.	Seminole Equalizer™			Any type of quality hay.
<b>Pasture or Forage Only</b>	Provide a ration balancer to ensure proper nutrition.	Seminole Equalizer™			Pasture
<b>Overweight Horse</b>	Feed low starch feed to avoid laminitis. Feed a reduced calorie diet & increase exercise.	Seminole Equalizer™	Wellness Calm & Cool® Wellness Safe & Lite®		Coarse Grass Hay
<b>Underweight Horse/Hard Keeper</b>	Feed diet high in digestible fibers & fats. Feed hay at a minimum of 2% of body weight daily.	Wellness DynaSport™ Wellness Show & Sport®	Wellness Senior Mix® Seminole Show Formula	Ultra Bloom® or Rice Bran Oil	Free choice mixed hay or forage
<b>Finicky Eater</b>	Include yeast culture in the horse’s diet. Horses may prefer either sweet feed over pellets or vice versa.	Wellness DynaSport™ Any Herbal Feed Wellness Victory!™			Any quality hay the horse will readily consume
<b>Geriatric Horse</b>	Feed a diet high in digestible fibers. Avoid whole grains.	Seminole Senior Formula Wellness Senior Mix®		Ultra Bloom® or Rice Bran Oil	Wellness Equi-Safe®
<b>Orphan Foal</b>	Bottle feed if possible along with creep feeding.	Seminole Milk Pellet Wellness Grow Right®	Seminole Perfecta 16™	Seminole Milk Pellets	Any type of quality hay, provide free-choice
<b>Brittle/Split Hooves</b>	Provide feed with high quality proteins and amino acids, biotin, methionine & zinc.	Wellness Perform Safe™ Wellness Herbal Blend™	Seminole Senior Formula Wellness Senior Mix®	Seminole Equalizer™	Any type of quality hay or forage product
<b>Poor Endurance</b>	Feed high calorie, high fat feed with digestible fibers. Feed hay at a minimum of 2% of body weight daily.	Wellness DynaSport™ Wellness Show & Sport®	Wellness Perform Safe™ Wellness Victory!™		Any type of quality hay or forage product. Provide unlimited hay.
